CORAL REEF

- REEF : a line of rocks or sand just above or just below the surface of the sea

- REEF : a line of rocks or sand just above or just below the surface of the sea

- CORAL : a substance like rock, formed in the sea by groups of particular types of organisms

- CORAL : a substance like rock, formed in the sea by groups of particular types of organisms

Great Barrier Reef

The image shows a world map with a focus on the Southern Hemisphere. The coastline of Australia is highlighted in pink. A large, irregularly shaped area of dark blue, representing the Great Barrier Reef, extends from the northern tip of Australia down towards the southern coast. A red rectangular box highlights a portion of the reef near the eastern coast of Australia. Two white rectangular boxes with black borders contain text: one labeled 'AUSTRALIA' at the bottom center and another labeled 'Great Barrier Reef' on the right side.

Sea turtles

What can you do
at the Reef ?

SNORKEL 🎭

ICE SKATE 🎩

DO SCUBA DIVING 🥑

FISH 🐟

What can you do
at the Reef ?

SURF 🏄

HOT AIR BALLOON 🎈

SAIL 🛶

What can you do
at the Reef ?

From Reef To Ruins

Some tips:

- WATCH the video : concentrate on the pictures, what you can see, what sort of landscape it is...
- Who is talking?
- LISTEN : try to spot the words you recognize.
- Why is the reef in RUINS ?

TEAM

Use biodegradable products

**Plant more trees
Stop deforestation**

**Use our cars less
Cycle or walk more**

Stop using plastic

Things to remember

- This video is about the Great Barrier Reef which is in danger because of men and climate change.
- If we want to protect this wonderful place, we have to stop polluting.
- So we can use biodegradable products.
- We should use our cars less and cycle or walk when it's possible.
- We could plant more trees to reduce carbon dioxide emissions.
- Its future depends on us!

Things to remember

- This video is about the Great Barrier [REDACTED] which is in danger because of me and climate [REDACTED]
- If we want to protect this wonderful place, we have to stop [REDACTED]
- So we can use [REDACTED] products.
- We should use our [REDACTED] less and cycle or walk when it's possible.
- We could plant more [REDACTED] to reduce carbon dioxide emissions.
- Its future [REDACTED] on us!

Ce que nous avons vu

- Un autre espace naturel aquatique en Australie
- Les conséquences néfastes des activités humaines sur un tel environnement
- Enfin, que nous pourrions ou devrions faire pour réduire ces conséquences.
